EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chris James, Attorney of Record, on August 14, 2006.

The application has been amended as follows:

In the Claims:

Claim 11 has been amended as follows:

-- 11. (currently amended) An apparatus according to Claim 8 wherein the housing defines the inlet radially outward from the turbine rotor, the turbine rotor ~~being a turbine wheel~~ connected to a shaft and configured to be rotated by the circulation of the gas through the housing and thereby rotate the shaft. --

Claim 12 is canceled.

Art Unit: 3745

The above change to claim 11 has been made to eliminate duplicate claim language.

Claim 12 has been canceled because it relates to the embodiment of a compressor, which is not directed to the embodiment of a turbine as recited in claim 8.
